NAMAN GUPTA

Built a pet community platform

https://www.linkedin.com/in/naman-gupta-721a97446/

EXPERIENCE

Built a pet community platform
GradCircle Innovation Challenge Technology Track
- Built the frontend and backend for a web-based pet community platform.
- Worked across the product's user-facing experience and server-side implementation.

Civic Issue Reporting Platform
GradCircle Innovation Challenge
- Contributed across frontend and backend development for a civic workflow platform concept focused on reporting, tracking and resolving local issues.
- The problem space included issues such as waste overflow, damaged infrastructure and water shortages.

4th Place – GradCircle Innovation Challenge Representative
CMS Mahanagar
- 4th Place – GradCircle Innovation Challenge represented CMS Mahanagar in the Technology Track.

Scholarship Recipient
Tensor School of Technology
- Awarded a scholarship following my first interview with Tensor School of Technology.

HackMates
SELF · Present
- Organises a WhatsApp community that helps students connect with potential teammates for hackathons.

EDUCATION

Indian School Certificate (ISC) · Class 12
City Montessori School
Present · India

PROJECTS

Pet Community Platform
Present · Technology Track
- Built the frontend and backend for a web-based pet community platform.
- Worked across the product's user-facing experience and server-side implementation.
